Meso Vytal, digital micro-needling skin therapy

MESO ME — the most gentle, most effective skin needling treatment available.

The visible skin damage such as wrinkles, fine lines, dehydration and sagging actually happens below the surface of the skin, this is also where the repair takes place. Most skin treatments use products which sit on the surface of the skin and less than 20% of these products will be absorbed.

Meso Vytal substances penetrate directly into the intersection between the epidermis and the dermis. The highly effective ingredients target and repair the cause of visual surface skin problems. This treatment includes a light AHA skin peel.

This treatment includes a skin peel. You may experience some reddening of the skin for several hours after treatment.

Meso Me

Express Face - 30 mins £65
Deluxe - face and neck, includes luxury collagen masque and foot or hand massage - 45 mins £85

MESO PLUS - a higher intensity skin needling treatment for maximum results.

Meso plus offers deeper penetration into the skin to target problem areas and more difficult skin issues such as acne scars and deeper wrinkles. This treatment includes a skin peel. You may experience some reddening of the skin for up to 48 hours after treatment, but results are longer lasting. The ultimate skin rejuvenation treatment.

Meso Plus

Deluxe - face and neck, includes luxury collagen masque and foot or hand massage - 45 mins £95

MesoEnhance
